

**STUDENT FRIENDLY RENTAL
PROPERTY DISCOVERY
EXPERIENCE**

Introduction

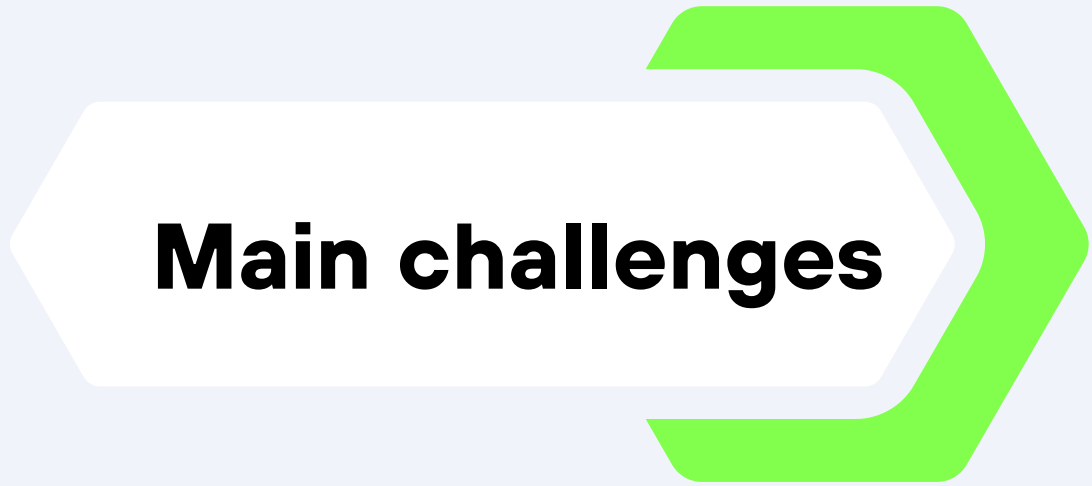

Students and young professionals frequently move to new cities for education, internships and jobs.

Finding suitable accommodation can be difficult and time-consuming.

Users need to consider rent, deposit, location, travel distance, amenities, house rules and availability.

Currently, this information may be spread across different sources.

Our idea is to provide a simple experience where users can understand important property information in one place.

Main challenges

- Finding accommodation within budget
- Comparing rent and deposit
- Understanding distance from university/workplace
- Comparing amenities
- Checking house rules
- Knowing availability
- Deciding which property is worth contacting

Rental Websites & Apps

- Property listings
- Search and filter options

Social Media & Online Groups

- WhatsApp groups
- Facebook groups
- Student communities

Local Brokers

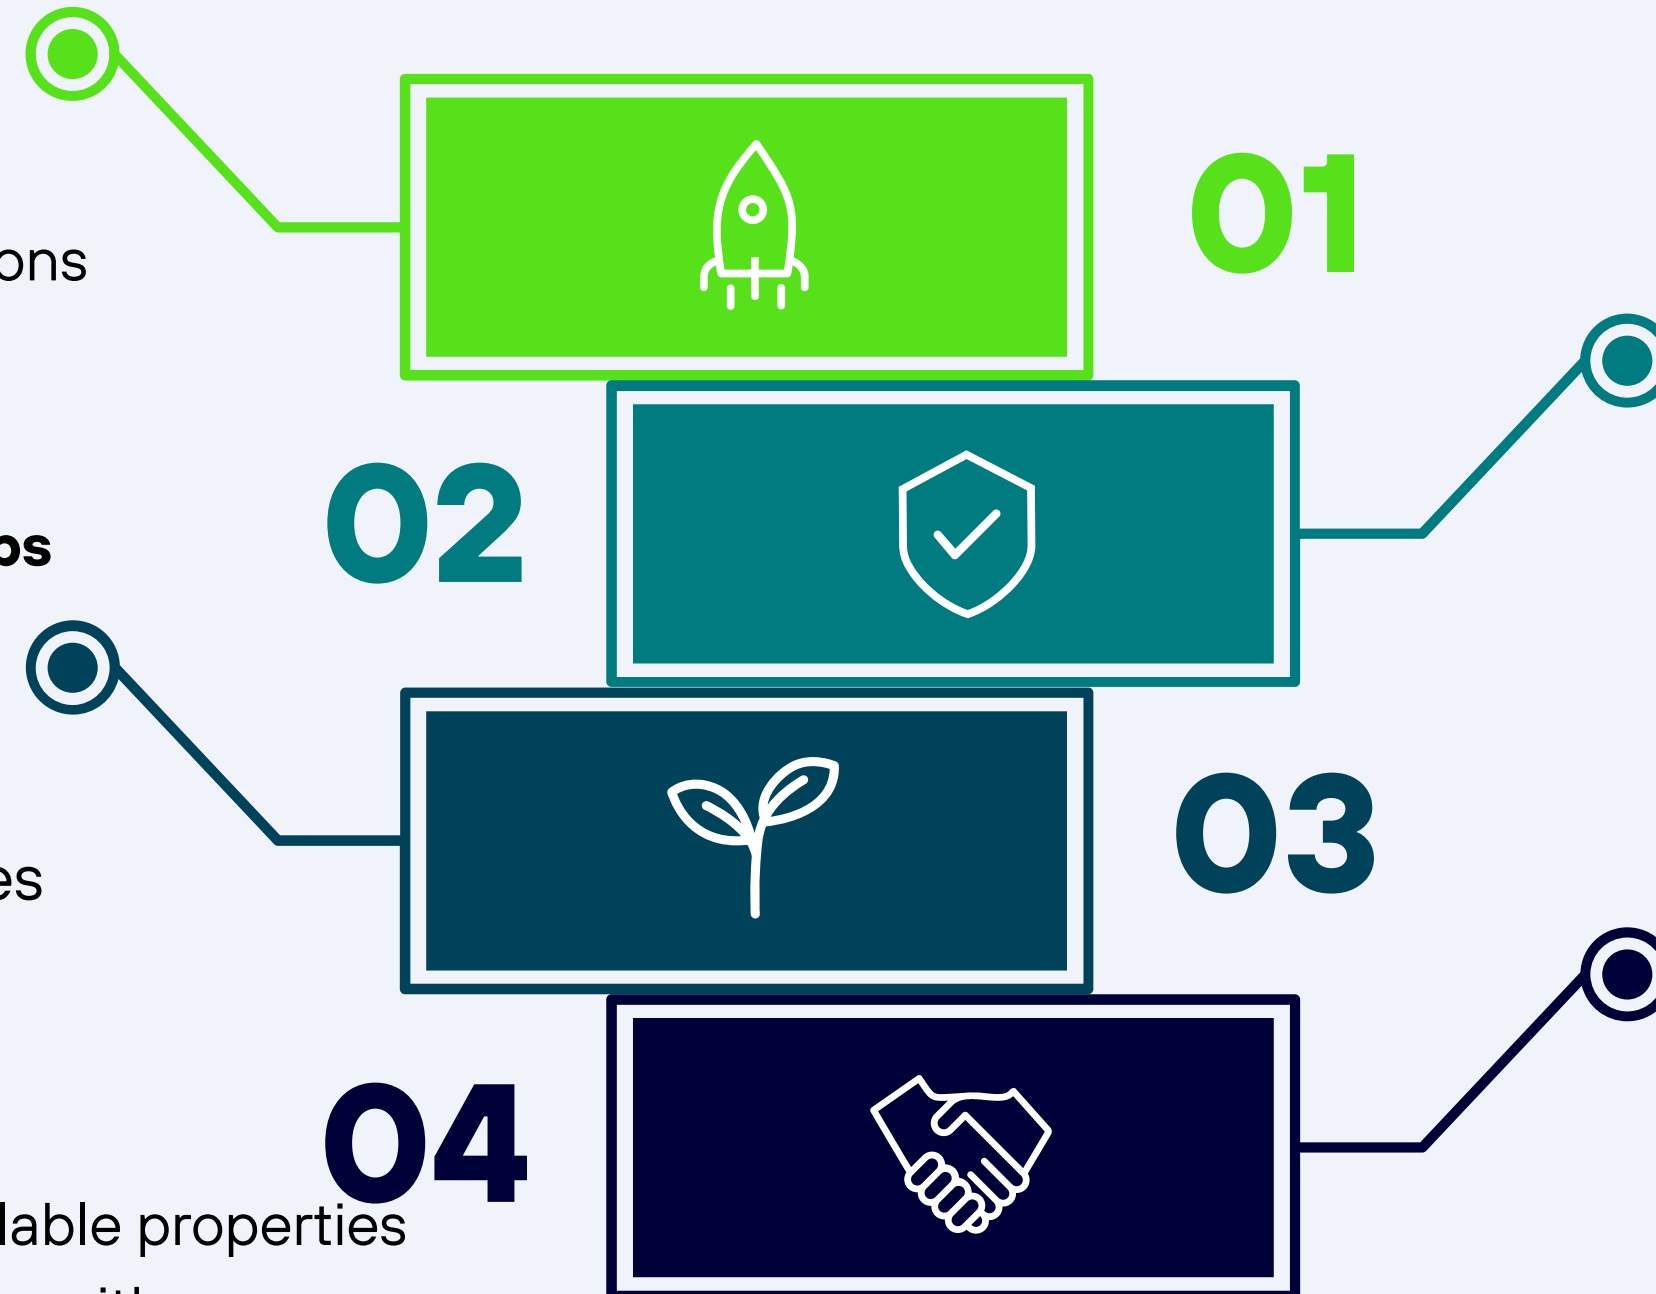

- Brokers suggest available properties
- Direct communication with owners

Google Search & Maps

- Find properties near a university or workplace
- Check locations and distances

Friends & Word of Mouth

- Recommendations from friends, seniors and colleagues

- **Problems with Existing Solutions**

- Information is scattered across multiple platforms.
- Comparing properties can be time-consuming.
- Rent and security deposit may not be easy to compare.
- Travel distance may require separate map searches.
- Amenities are not always presented consistently.
- House rules may not be clearly mentioned.
- Availability information may be unclear or outdated.
- Users may have to contact multiple property owners.
- Some listings may contain incomplete information.

Who Are Affected?

01

Students

College/university students
Students moving to a new city
Students looking for PGs, rooms or shared accommodation

02

Young Professionals

Employees relocating for work
Interns and trainees

03

Other Users

Property owners
Rental brokers
Universities

Stakeholders

Stakeholder Requirement

Students - Affordable and suitable accommodation

Young Professionals - Convenient accommodation near workplace

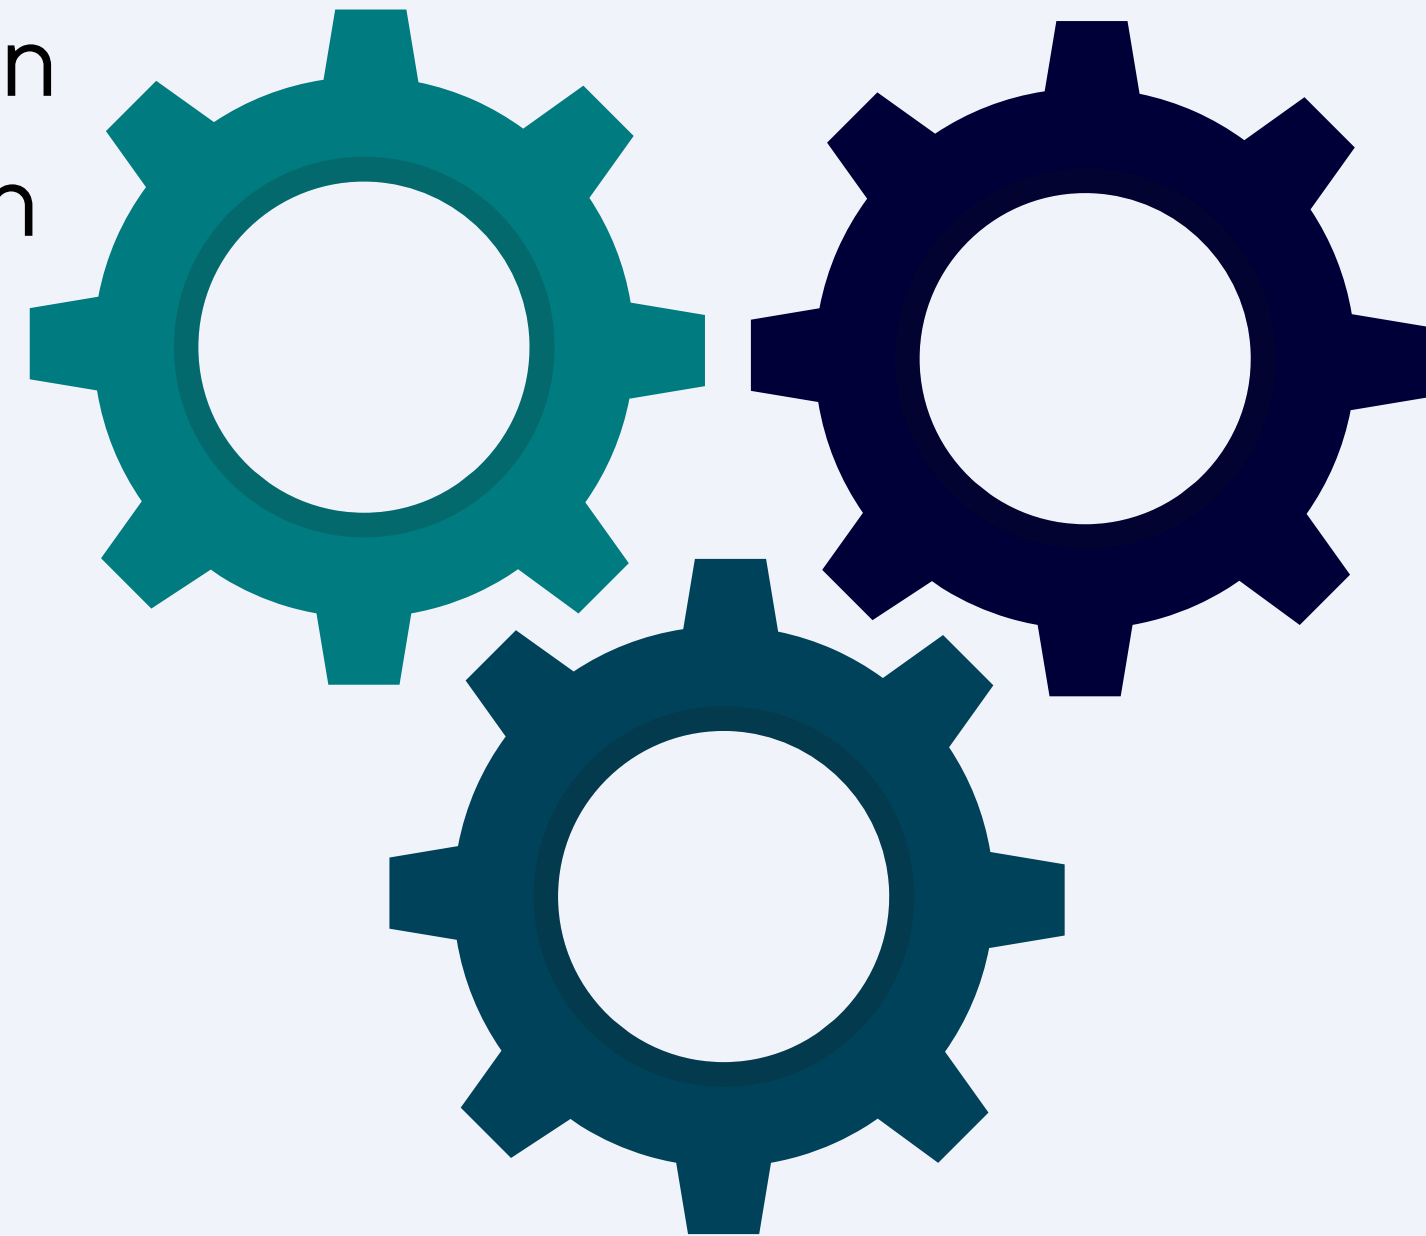

Parents / Guardians - Affordability, location and facilities

Property Owners - Reach potential tenants

Rental Brokers - Connect properties with users

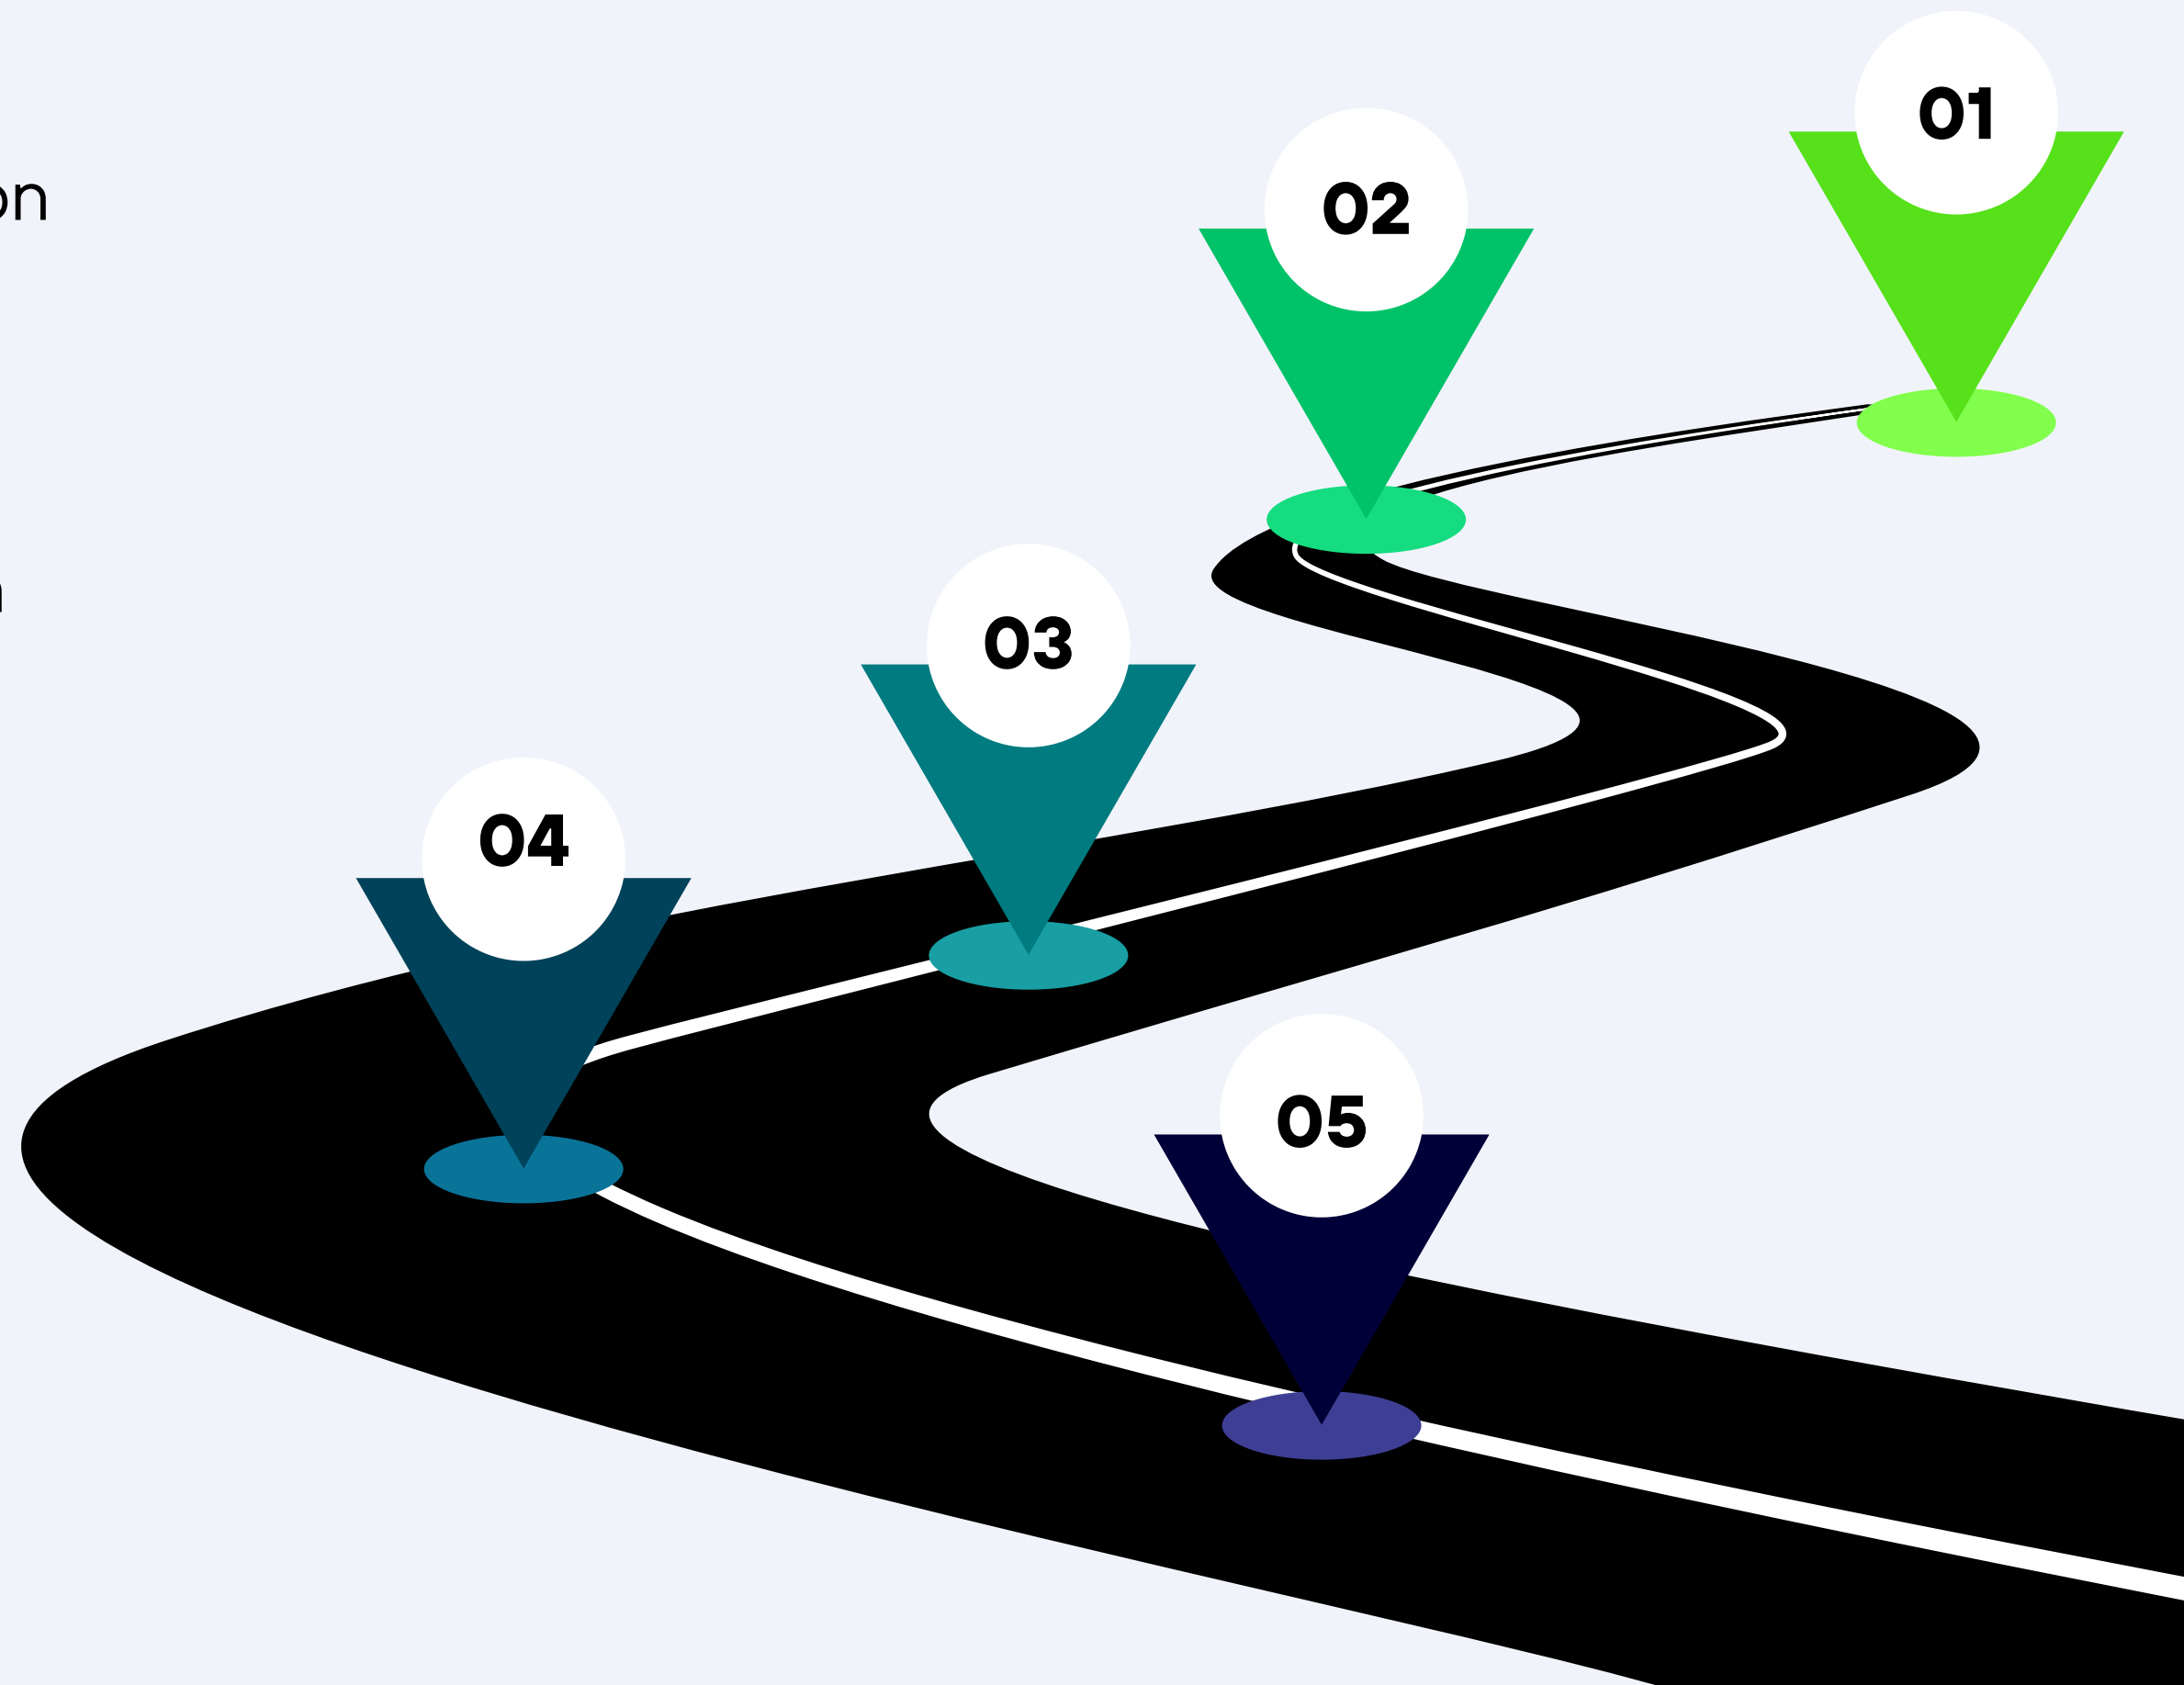

Universities - Support students relocating for education

Platform Team - Maintain the rental discovery experience

Proposed Solution

- Search for rental properties
- Discover properties based on location
- Filter according to requirements
- View distance and travel information
- Compare amenities
- Check house rules and availability
- View complete property details
- Save/favorite properties
- Contact property owners

Main Idea

- Property details
- Monthly rent
- Location and distance from college/workplace
- Estimated travel information
- Amenities and furnishing
- House rules
- Availability
- Contact the property owner

Conclusion

The Student-Friendly Rental Property Discovery Experience provides a simple and convenient way for students and young professionals to find suitable rental accommodation.

Brings important property information into one place.

Helps users easily compare rent, location, travel distance, amenities, house rules, and availability.

Allows users to search, filter, save, and compare properties based on their requirements.

Reduces the time and effort required to search through multiple sources.

Helps users make a more informed decision before contacting a property owner.
